

# Ullas M U

Web developer & Game dev

Jack of all trades with a passion for mastering multiple domains—proficient in web development, mobile development, game development, and desktop application development. My curiosity constantly drives me to explore new technologies and understand the intricate workings behind them, ensuring I stay ahead of the curve in every project I undertake.

## EDUCATION

### Study Program

Bachelor of Computer Applications (BCA)

7.95 cgpa

## PERSONAL PROJECTS

### Automation ai

- Developed a platform that generates short reels using AI-driven content creation.
- Utilized **Next.js** and **React.js** for the frontend, enabling dynamic user interaction.
- Leveraged **Neon DB** for scalable data storage and **Drizzle ORM** for efficient database management.

### Prompt Hub

- A hub where users can post and explore a variety of AI prompts for different use cases.
- A modern, responsive web app utilizing React.js for the frontend and Next.js for server-side rendering and performance optimization.
- Enables users to engage with, share, and find creative AI prompts contributed by the community.

### Portfolio Website

- Designed and developed a personal portfolio to showcase web development projects.
- Built with **Next.js** for fast performance and seamless navigation.
- Integrated responsive design for an optimized viewing experience on all devices.

### Nike Landing Page

- Designed and built a responsive landing page for Nike using **React.js**
- Implemented a clean, modern UI with seamless animations and product showcases.
- Integrated product catalog and featured items with an intuitive design to enhance user experience.

### Apple Website

- Developed a visually engaging website for Apple using **GSAP.js** to create smooth animations and transitions.
- Focused on replicating Apple's signature style with high-quality visuals and a modern user interface
- Optimized performance for seamless user experience across different devices.
